PROFESSIONAL SUMMARY

B.Tech Computer Science student graduating in June 2027 with skills in Java, Python, C++, and JavaScript. Hands-on experience through academic and personal projects in web applications, AI-based tools, Android applications, and database management. Completed a one-week Full Stack Development training and have knowledge of DSA, DBMS, Operating Systems, Computer Networks, and Machine Learning. Strong problem-solving, quick-learning, and teamwork skills.

TECHNICAL SKILLS

Programming Languages: C, C++, Java, Python

Web Technologies: HTML, CSS, JavaScript

Databases: MySQL

Core CS Concepts: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks, Machine Learning

Tools & Platforms: Git, GitHub, VS Code

SOFT SKILLS

• Problem Solving • Task Prioritization • Communication • Team Collaboration • Quick Learning • Research & Information Analysis

EXPERIENCE

Full Stack Development Intern — Retechnox Technologies LLP

June 2026

- Completed a 1-week intensive Full Stack Development training, applying HTML, CSS, and JavaScript to develop and debug web application features.
- Collaborated in a fast-paced, project-based environment to deliver working functionality within a compressed one-week timeline.

Business Consultant Trainee — Xentricx Technologies, Mysuru, Karnataka

Dec 2023 – Apr 2024

- Supported cross-functional organizational activities, strengthening professional communication, coordination, and structured problem-solving skills.
- Practiced analytical reasoning and responsibility while contributing to team-based consulting tasks.

PROJECTS

AI Skill Gap Analyzer — Group Project

- Built a web-based AI application in Python that parses resumes and extracts skills using NLP (SpaCy).
- Implemented logic to compare extracted skills against job-role requirements, identify gaps, and generate personalized improvement recommendations.

Aahaaa Muziq — Group Project

- Developed a free MP3 music player Android application in Java, differentiating from paid competitor apps.
- Designed the app architecture and user interface for smooth, ad-free media playback.

Criminal Record Management System — Personal Project

- Developed a Java-based Criminal Record Management System to efficiently manage, store, and retrieve criminal records.
- Implemented login authentication, CRUD operations and database connectivity using Java and MySQL.
- Designed structured database schemas to support efficient data storage, retrieval, and record management.

CERTIFICATIONS

Mathematical Foundations for Machine Learning — NPTEL, IISc Bangalore | Jul–Oct 2025 | Elite Certification

Full Stack Development Program (Internship, workshop & Quiz) — Retechnox Technologies LLP | June 2026

EDUCATION

B.Tech, CSE (Honours), Lateral Entry — College of Engineering Karunagapally 2024 – 2027

CGPA: 8.94

Diploma in Computer Engineering — Government Women's Polytechnic College, Kayamkulam 2020 – 2023

CGPA: 8.74

LANGUAGES

Languages: English, Hindi, Malayalam
